## Exterior Wall Renovation Specialists

### The Ultimate Wall Protector!

Approved contractors for  
**N.H.B.C**  
**ALSECCO**  
**WETHERBY**  
**INSULATION SYSTEMS.**

**GOODYEAR**  
**PLIOLITE**

### Pliolite or Alsecco Acrylic top coats.

The ultimate wall protectors for the outside of your property. Proved to be unrivalled for over 20 years. Anti-crack resistant wide choice of colours and textures

### K. Rend. CPI. Wetherby or Alsecco Polymer Fibre Based Renders

Guaranteed for over 25 years by the BBA.  
 All our systems have been successfully protecting properties for over 20 years. It is like putting an armour plating on your walls, to protect your property from the ravishing weather.

### BBA Approved for 20 to 30 years

A Government sponsored organisation proving that Goodyear Pliolite K REND, Alsecco and Wetherby renders are the ultimate anti crack supreme solution for providing protection to the outside of your property

### HighTex - Multiguard Solutions.

A well established company with a first class reputation for providing the best 3/4 coat, bolt and mesh system by quality trowel application using professional time served plasterers.

We provide whichever solution that is best to give your property a maintenance free protection and damp prevention for a minimum of twenty years.

### Protectguard and brick tinting.

We specialise in brick and stone wall repair and repointing. We use an industrial heavy duty diesel steam, hot & cold water jet wash to remove surface grim, moss and algae. Then we remove the exsisting mortar and re-point using a lime based mortar. We then apply two saturated coats of **Protectguard**. This is covered by a **Ten year AXA insurance backed gurantee**. We also offer brick tinting to match miss matched brickwork.

High quality anti crack resistant base coats & Acrylics top coat. 450 colours to choose from

### Protectguard

Clear coating for brickwork and Stonework  
 Guaranteed by AXA Insurance for 10 years.

We fit a full bolt and mesh system to guarantee our high Polymer & fibres base coat system will never lose its adhesion to the wall. We fit a heavy duty polypropylene fasteners every 18" spacing to guarantee 100% adhesion & bonding into the wall.

Choice of textures to suit your individual choice

2/3 coats of heavy duty synthetic base coats which are professionally trowel applied at a minimum of 15mm thick, by our skilled fitting teams

We fit polypropylene mesh & beading all around the windows/doors and corners/edges of the property for guaranteed protection against loss adhesion and cracking.
